Dark Side of Hot Topics: The Settler-Colonial and White Supremacist History of Aquatic and Fishery Sciences

Deconstruct how historical context shapes our field and develop concrete actions for addressing this context in our subdisciplines.

**POTENTIAL TOPICS**
- “Parachute science” / (Marine) Protected Areas and Local Involvement in Conservation
- Intersection of Aquaculture and Indigenous Culture
- Climate Change and Impacts to Marginalized Communities
- Labor, Race, and Colonialism within the American Seafood Industry

**FORMAT**
- Graduate student-lead discussion course
- Prepare and lead 1 weekly discussion (small group, Weeks 4-9)
- 1-2 hours of readings per week (individual)
- 1 end of course reflection (individual)

**FISH 507**
Spring 2021, 2 Credits
CR/NC; SLN 20967
Th 10:30-12:20;
Remote Synchronous Meetings

**INSTRUCTORS**
