## Preview of the 2024 Eastern Bering Sea Pollock Stock Assessment

**November 6, 2024, 4:00 pm**  
**Room 102, First Floor, Fishery Sciences**  
**1122 NE Boat Street, Seattle, WA 98105**

The School of Aquatic and Fishery Sciences, the College of the Environment and the Center for Sustaining Seafood invite you to attend a live preview of the most recent assessment of Eastern Bering Sea (EBS) pollock—the target of one of the world's largest fisheries.

The purpose of this forum is to provide fishery stakeholders and the public the opportunity to learn about the status of the EBS pollock stock and discuss the science underlying the assessment.

Dr. Jim Ianelli, NOAA Fisheries Alaska Fisheries Science Center (AFSC) scientist and SAFS affiliate professor, will present the EBS pollock assessment model and the most recent trends in the EBS pollock stock.

Reception to follow.

A limited zoom option is also available: <https://washington.zoom.us/j/91891485695>
