

UNIVERSITY OF WASHINGTON  
SCHOOL OF AQUATIC AND FISHERY SCIENCES

# 2016 Autumn Seminar Series

Thursdays, 4:00 pm  
Fishery Sciences Building, Room 102

SEPTEMBER 29

**Tom Quinn**, School of Aquatic and Fishery Sciences, University of Washington  
*More than just fillets on the grill: Salmon and trout as models of evolutionary ecology*

OCTOBER 6

**Dave Beauchamp**, USGS Western Fisheries Research Center  
School of Aquatic and Fishery Sciences, University of Washington  
*Anthropogenic impacts on bottom-up and top-down processes affecting marine survival of salmon in the Salish Sea*

OCTOBER 13

**Ernesto Peñas Lado**, Henry M. Jackson School of International Studies,  
University of Washington  
*The EU Common Fisheries Policy. Can we do the job?*

OCTOBER 20

**Daniel Schindler**, School of Aquatic and Fishery Sciences, University of Washington  
*From brown water to brown bears: how geomorphic features control ecological processes in watersheds*

OCTOBER 27

**Barry Berejikian**, NOAA Northwest Fisheries Science Center, Manchester Research Station  
*Is there potential to improve the conservation benefits of hatchery programs?*

NOVEMBER 3

TBA

NOVEMBER 10

TBA

NOVEMBER 17

**Graduate Student Symposium**

NOVEMBER 24

Thanksgiving Holiday—No Seminar

DECEMBER 1

**Jordan Rosenfeld**, British Columbia Ministry of the Environment  
*Flow-ecology relationships, non-linearities, and the evolution of instream flow science*

DECEMBER 8

**Ryan Kovach**, Northern Rocky Mountain Science Center, U.S. Geological Survey  
*Direct, indirect, and cryptic consequences of climate change for cold-water fish*
